

# The BASSANO RECORD

VOLUME SIX NUMBER 97

BASSANO, ALBERTA Thursday June 14th, 1945.

License Number 100-1000000

## "small business" ISN'T SO SMALL!

Ordinarily one Canadian in every six gainfully employed, earns his livelihood in a "small business." It may be a farm, a store or a lumber-yard or an architect's office or a service station. Taken together, these individual enterprises provide a very substantial part of Canada's total jobs—must continue to do so after the war.

No fewer than 94 out of every hundred establishments in the manufacturing, wholesale, retail and services fields are small, employing less than 15 people. Together they employ 37% of all the workers engaged in these classes of business.

(From 1941 census)

During the years ahead many people who dropped small business for war reasons will want to return to their accustomed or new ways of making a living. Thus old businesses will be revived. Many new ones will be started by returned men and people now in war industries. The commercial banks will do their part to afford assurance that no sound credit requirement need be left unscrutinized in the field of small business.

As such businesses grow, they create additional job openings; that has been the pattern of Canadian enterprises. Most large companies began in a small way. And practically all could name some bank which played a part in their growth by providing the loans they needed to finance their day-to-day operations.

Your bank stands ready to serve businesses, small or large, well established or just starting out. Banks do not initiate such businesses—but they do furnish necessary working capital and many other forms of banking service.

### ORPHEUM THEATRE

BASSANO ALBERTA

June 15 & 16,

### Andy Hardy's Blonde Trouble

MICKEY ROONEY and FAY HOLDEN

Show Starts At 8:30 p.m.

### Born at the Hospital

To Mr and Mrs Clarence J. Belmer  
Duchess a daughter on May 4th.

To Mr and Mrs K. Chish Bassano  
a daughter on May 4th 1945.

To Mr and Mrs Jas F. Marquess  
Gem a daughter on May 6th 1945.

To Mr and Mrs Dmytre Pichur  
Crowfoot a son of May 8th 1945.

To Mr and Mrs Julius Robert  
Chuny a daughter on May 16th.

To Mr and Mrs David D. Kasdorf  
Rosemary a son on May 17th.

To Mr and Mrs Niels P. Nielsen  
Chancellor a son on May 17th.

To Mr and Mrs Nick Duack, Gem  
a daughter on May 18th, 1945.

To Mr and Mrs G.A. Simpson,  
Bassano a daughter on May 24th.

To Mr and Mrs Rueben Schaffer,  
Bassano a daughter on May 25th.

### NEWS OF LOCAL INTEREST

P.A. Neufeld, George Loewen, Dave Dyck and Dave Enns, did a neighbourly deed very recently when they went with tractors and plows and plowed the field of summer fallow for Mr. Ankrum, who suffered the loss of barn feed and harness by a fire in May.

On Sunday June 9th, many ball fans saw Gem lose a hard played baseball game. Though the game started a little late it was marked by some very good plays. It was the first game Bassano and Gem have played this season and we hope to see many more. Bassano won by a score of 11-4. We hope to give them a return match next Sunday in Gem.

Wally Philpotts who is in the Navy, is home again on a short leave.

## FARMERS look to the FUTURE

Mr. Farmer will that boy of yours overseas be satisfied to return to his old surroundings when the war is over, or do you think the kind of job and travelling he's been doing will turn his mind to other things? You can help prevent this by installing a few improvements and conveniences around your farm, which will show him that the old life isn't bad at all. You could even let him help you install them after the war, when needed replacements repairs and improvements can be made. How are you going to do all this? By building up a good cash reserve—saving surplus funds now and safely salting them away for the future use. Most farmers consider Victory Bonds the best way to invest extra cash safely and securely.

## Alberta Federation Studies Beef Marketing

At a meeting of the Board of Directors Alberta Federation of Agriculture, in Calgary on June 8 a very full discussion of the beef cattle marketing situation took place and a resolution was passed asking the Canadian Federation of Agriculture to present their views and requests to the Dominion Department of Agriculture.

Last autumn's experience was that large numbers of cattle were marketed, causing a congestion at the yards and plants of our terminal markets, and as a result the producers were forced to accept depressed prices for their beef and in many cases were exposed to ex-

cess shrinkage and yardage charges. There is every indication that a similar condition will arise this coming fall, and the producers feel that steps should now be taken to meet such an emergency should it develop.

The Alberta Federation of Agriculture strongly recommends that steps should now be taken to meet such an emergency should it develop.

Who led his Liberal government back into office for the third straight victory in ten years in Monday's federal election. Only two members of the King cabinet were defeated—Defence Minister MacNaughton and Revenue Minister McLaren.

There is every indication that a similar condition will arise this coming fall, and the producers feel that steps should now be taken to meet such an emergency should it develop.

The Alberta Federation of Agriculture strongly recommends that steps should now be taken to meet such an emergency should it develop.

## ANNOUNCEMENTS

For sale—Two Registered Hereford Bulls. Two and three years old. Apply E.O. Tolgland Bassano

Women with two boys under 10 years want job housekeeping, fully experienced. Will work part time with separate living quarters or full time. Write to Elida Wagar 1011 Chumy Co. H.E. Bray or Phone 214.

The Building where the Bassano Recorder is printed is now offering for sale at a very reasonable price. It is 20 by 60, full basement, 4 living rooms upstairs, kitchen, bathroom, running water. Interested may apply Box 275, Bassano, Alberta.

Reading from left to right in the above picture: ALCAZAR GIBBS, a champion Holstein, owned by the Hays Ranch at Turner Siding, near Calgary, and Peter WHITALL, CBC Farm Broadcast Commentator for the Prairie Region. On March 24 Alberta broke the world's record for butter-fat production with 1,000 pounds of butter-fat in 24 days. Peter Whitall called to pay his respects to Alberta and to record a broadcast for the Farm Department. The visit he also acted as guest commentator for an actually broadcast arranged by Station 39AC, Calgary and incidentally, kept his hand in at an old farm chase.

# NOW is the time to BUY COAL

This year there must be no "slack season" in the Western mines. Every miner must be kept working throughout the year, if you are to be sure of your next winter's supply of coal.

So that your dealer may do his part in keeping the mines busy during this war emergency, get him to fill your bin as soon as possible.

DEPARTMENT OF MUNITIONS AND SUPPLY  
Hon. C. D. Howe, Minister

## HAVE YOU REGISTERED YOUR CHILDREN FOR

# FAMILY ALLOWANCES?

1,200,000 FAMILIES have already registered for Family Allowances. Approximately 100,000 families who are entitled to register and who will benefit, have not yet registered.

Family Allowances cheques will be mailed in July.

If you want to receive your first cheque, register now. If you delay your registration any longer, it may not be possible to deal with your application in time to send you the first cheque.

If you have children under 16 and if your income is under \$3,000 a year, you will benefit from Family Allowances. If you have not registered, and intend to do so, please act at once! Family Allowances Registration forms have been mailed to every family. They can be obtained at the nearest post office or by writing to the Regional Director of Family Allowances in the capital of your province.

## FAMILY ALLOWANCES AND INCOME TAX

When the Family Allowances Act was passed, Parliament approved the principle that there should be no duplication of benefits by way of Family Allowances and Income Tax credits for the same child.

Family Allowances cheques will be paid in full every month. But for the last six months of 1945 an adjustment will be made to avoid duplication of benefits. The table below shows the effect of this adjustment and will enable taxpayers to determine the extent to which they will benefit from Family Allowances.

TABLE SHOWING EFFECT OF ADJUSTMENT FOR 1945

AMOUNT OF TAXABLE INCOME	PERCENT BY WHICH INCREASE WILL BE MADE (IN ADDITION TO PRESENT INCOME TAX CREDITS, FOR 1945)
Not over \$1200	100%
Over \$1200 but not over 1400	90%
1400 " " 1600	80%
1600 " " 1800	70%
1800 " " 2000	60%
2000 " " 2200	50%
2200 " " 2400	40%
2400 " " 2600	30%
2600 " " 2800	20%
2800 " " 3000	10%
3000	0%

NOTE:—This table applies to married persons and others having the status of married persons for income tax purposes. For the relatively small number of single persons supporting children and not having married status for income tax purposes, and for members of the Armed Forces, special tables can be obtained from the Regional Director of Family Allowances in each provincial capital.

**THE BENEFITS:** The Family Allowances Act was passed to help equalize opportunities for all children. The monthly allowances will assist in providing medical, dental and nursing services, better food, better clothing and shelter.

Family Allowances are available to dependents' allowances for servicemen's families and military pensions.

Furthermore, Family Allowances are NOT taxable. You do not add these monthly payments to your total income when computing your income tax.

In the column at left is an explanation of the relationship between Family Allowances and Income Tax deductions for children. From the table given you can determine quickly the extent to which you will benefit.

## REGISTER NOW!

If you intend to apply for Family Allowances but have not already done so, please act at once—in the interests of your children. Remember, the first cheques will be mailed in July, but only to those who have registered and are eligible to receive Family Allowances.

### SCALE OF MONTHLY ALLOWANCES FOR THE FIRST FOUR CHILDREN

For each child	Under 6	From 6 to 12 (inclusive)	From 12 to 15 (inclusive)
Under 6	\$5.00	6.00	7.00
From 6 to 12 (inclusive)	6.00	7.00	8.00
From 12 to 15 (inclusive)	7.00	8.00	9.00

NOTE:—If there are more than four children under 16 in the family, the monthly allowance for each child after the fourth will be reduced in accordance with the provisions of the Family Allowances Act.

Published under the authority of Hon. BROOK CLAXTON, Minister, Department of National Health and Welfare, Ottawa

## PARADE OF LIFE

Recently returned to the west coast radio scene after service with the information branch of the Canadian Army, Dick Die-specker's first important assignment has been the writing and production of a drama series based on the lives of great men of the past. The program is heard on Mondays at 9:30 p.m. CDT over the CBC Dominion network and is entitled "Parade of Life".

Upwards of 53 percent of farm labour in Canada has gone into industry since the start of the war. In spite of this, the output of agricultural products has increased by over 40 percent.

size from one end, but we keep up the pressure inside the can. The result is that we still have 1,000 pounds pressure against the one end of the can, but only 800 pounds pressure on the other end.

The difference in the pressure is the force which drives the can in one direction. There you have the whole principle of jet propulsion.

According to Dr. Edward G. Pendray former president of the American Rocket Society, to whom we are indebted for the information in this column, jet propulsion works better in a vacuum than in air.

Far from pushing on air, the rocket or jet propelled plane is held up by having to force its way through the air. Once free of air pressure a jet propelled plane will travel at phenomenal speeds. Theoretically it should be able to attain thousands of miles an hour.

Some of the advantages of jet propulsion are as follows: There are almost no moving parts to the very simple motor, the motor makes far more efficient use of fuel than an internal combustion engine and very cheap fuels can be used.

Because gasoline is too expensive for the motors so far developed, the planes so far developed use cheaper fuels such as kerosene. These are mixed with oxygen taken from the air by a compressor and then exploded. That's all there is to it.

Jet propulsion works more efficiently the higher the speed. It doesn't really start to get efficient until it's doing 700 miles an hour or better. It is being perfected rapidly and is probably miles nearer wide practical use than the helicopter.

The big 2,500 horsepower internal combustion engine, the largest in use on an aircraft is so immensely complicated with so many thousands of precision parts which is near its practical limit. Jet propulsion really starts where it leaves off.

But for a good many years to come we'll probably be sticking to the dependable little 65 horsepower, four cylinder air cooled internal combustion engine, for light aircraft when it comes to private flying.

Canada is the world's greatest producer of pulp and paper.

\*Under new-Canadian fire regulations automobile inner tubes will not be rationed after June 1. Approximately 35,000 vehicle owners will be allowed new tires.

A normal basis. Nothing could be further from the truth. There is a tremendous amount of work to be done. The war in the East has yet to be won. The young men and the young women of Canada have to be brought home and rehabilitated. The manufacturing concerns which have been devoting all their time and energy in war production have to be converted to peace time requirements. All this requires a tremendous amount of money.

On Friday, June 29th a provincial wide Stamp Day is to be held and it is the duty of every citizen of this Province to show that they still retain their sense of responsibility by buying War Savings Stamps through their local merchants on that date.

Stanley Maxted, who returned from the First World War to become a well-known Canadian tenor in the United States, sang the job of radio reporter in the World War II. He landed twice with albatross troops in Europe and is now to be heard on CBC networks covering the war in the Pacific for the BBC.

## Careful Driving Saves 80,000 Cars

The Department of Munitions and Supply reports that for 13 years prior to 1941 automobiles went off the roads and highways to the scrap-heap at the rate of 60,000 a year. Then came a turning point. Motorists realizing that the family car must be made to last for the duration of the war, drove less, drove more carefully and attended promptly to minor repairs. From Prince Edward Island to British Columbia the number of cars linked in 1942-43 dropped to the all-time low of 23,500.

Preliminary figures for 1944 suggest that only 25,000 cars went to the scrap pile last year. This slight increase over the previous year is attributed not to any easiness on the part of the motorists but to the simple fact that wear and tear was just too much for many of the old models. As these figures are taken directly from the number of licences the chances of error are reduced to a minimum.

## Produce More Farm Machinery

New measures to increase farm machinery production to 130 per cent of 1944-45 rates, are announced by the Wartime Prices and Trade Board.

Early in May, the Board predicted that present production, maintained at 100 per cent of the 1944-45 rate, might increase with termination of war contracts and improved supplies of raw materials.

The new order removes all restrictions on the production of repair parts but continues rationing of items in short supply.

Neither producers nor importers may sell any machinery or equipment requiring rubber tires without written approval from the administrator of farm machinery, H.H. Bloom.

(continued from Page One)  
that the Dominion Department of Agriculture, through the Canadian Meat Board or a special board, take immediate steps to States. Such a movement would relieve congestion on our marketing and processing facilities and would again establish contracts with the American markets.

It is not their wish that these cattle should flood the United States market; should they be paid for at prices out of line with our present ceiling price for beef. It is not the intention of the western producers to shirk their responsibilities in filling the present wartime commitments and contracts made with the United Kingdom but such obligations should not be met at the expense of the livestock producers, nor should their position on the United States market be jeopardized.

Since leaving la Serena, Chili, where he was born, ALBERTO GUERRERO has lived as an artist in a succession of cities including Santiago, New Orleans, New York and Toronto, where he now makes his home. The distinguished pianist and composer will be guest soloist with Ettore Mazzoleni and the concert orchestra on the next broadcast of "Dominion Concert Hour", Tuesday, June 5 at 8:00 p.m. CDT over the CBC Dominion network.

## HAYWIRE'S A HELP... BUT

Haywire comes in mighty handy for many an emergency repair around the farm. But it won't do when farm machinery and other expensive equipment breaks down. It's then that repairs and replacements can run into real money.

Loans to take care of essential repairs or replacements are always available at any branch of The Royal Bank of Canada. Money spent for such purposes is money well invested, because a breakdown on the farm often leads to serious and costly trouble. When you need cash to repair or replace machinery, or for any productive purpose, call on the manager of our nearest branch.

## NOTICE To Canadian

### Citizens

One of the things that is causing concern to the National War

Finance Committee of Canada is the attitude which seems to be prevalent throughout the Dominion with regard to any further financing due to the termination of hostilities in Europe. The prevailing opinion seems to be that now that the war in Europe is over that no more money will be required to get Canada back to

## ANOTHER ELECTION

The method used in the election of Alberta Wheat Pool delegates ordinarily provides that one-half of the total number of sub-districts shall be elected each year. Due to the fact that there has been a rearrangement of the boundaries of the sub-districts, seventy new delegates will have to be elected this year. The 35 delegates in the odd-numbered sub-districts will be elected for two year terms and the 35 in the even numbered sub-districts for one year term.

Nomination blanks have been forwarded to each member of the Wheat Pool together with a list of members in the sub-districts; also full instructions as to the method of nomination. Nominations must be in the Alberta Wheat Pool office, Calgary, by 5 o'clock on the afternoon of June 30th, 1945.

It is important that all Pool members should interest themselves in this matter. Any ten members can nominate a candidate for the office of delegate.

## ALBERTA WHEAT POOL
